- Registration Link: <https://forms.gle/GFk96341hnokyJ5S9>
- Contact email: sscoenpw@gmail.com

Objectives

1. Foster Collaboration:
To promote partnerships across educational, scientific, and business sectors for knowledge sharing and best practices.
2. Enhance Education:
To examine the role of teacher education in sustainable development and the achievement of Sustainable Development Goals (SDGs).
3. Support MSMEs:
To identify challenges faced by MSMEs and advocate for strategies that promote growth and innovation through vocational training.
4. Advance Research in Earth Sciences:
To disseminate findings related to ocean and earth sciences to deepen understanding of environmental challenges.
5. Promote NLP and AI:
To share learning experiences above the strategies on using NLP and AI in education.

Expected Outcomes

- Establish collaborative networks to foster ongoing partnerships.
- Generate actionable insights and recommendations for educational policies and practices.
- Encourage the exchange of innovative research findings and technological advancements.
- Strengthen the role of education in sustainable development and economic growth.

Research Synergy

ICARE 2025 brings together top experts from ASEAN+5 countries to share insights, collaborate on groundbreaking research, and set strategic priorities for the future. Join us in advancing impactful knowledge exchange and shaping regional research.

Global Recognition and Publication Opportunity

At the research conference, participants will receive Certificates of Recognition for their submitted papers. All presented papers will undergo review and editing by an esteemed international panel of experts and will be published as part of a globally recognized research proceeding.

Join Us!

This conference represents a significant opportunity to exchange knowledge, build partnerships, and advance applied research across diverse fields, ultimately contributing to the betterment of societies through education and innovation.
